

Youth Online : Against early school leaving in Europe

Barcelona, Spain. September 2019

An extra- meeting of Erasmus + Youthonline Project took place in Barcelona from 25th to 28th September 2019, at Escola San Gervasi in Mullet- Barcelona.

The students Rossella Ianniello, Carla Carleo and Gerardo Strammiello from Class 3A took part in this meeting : they were accompanied by teachers Angela Raimondi and Maria Teresa Di Lascio.

They greatly contributed to the workshop and joined in the group of their mates from Turkey and Barcelona: they worked together on the development of a web site which is meant to become a possible support for students at drop out risk

During the 26th September meeting Italian students introduced their own school; they were later invited by their Spanish mates to visit the facilities at Escola San Gervasi Cooperativa. They were enthusiast about it!!

Group works were arranged on September 27th and the online web site was thoroughly analysed with special attention to the "dialogue" between mentor and learner.

This summit was a good chance to let Italian students know new cultures and Education praxis , as well as to improve English language.
